T-30 THERMAL BINDER

The T-30 is incredibly simple to use. All you have to do is place your document in a thermal cover and into the machine. Wait until the buzzer sounds and the binding process is finished. The T-30 also has a built in cooling rack attached to the back of the machine providing a convenient place to let one set of documents cool down while you bind the next ones.

COOLING RACK!

Durable plastic shell

Easy operation with buzzer and indicator light.

Built in cooling rack for increased performance

Maximum Spine Width: 1"

Maximum Spine Length: 11.8"

Binds multiple documents at the same time up to 1" total thickness
